

NAVEEN SACHAN

SENIOR CONSULTANT 2

Mobile: 7696963558

Email: naveen9.cse@gmail.com

Location: Noida, NCR , INDIA

Experience: 7 Years of experience

PROFILE SUMMARY

Frontend-focused Senior Developer with 7+ years of experience delivering scalable, user-centric web applications. Expertise includes React.js, JavaScript, TypeScript, Next.js, Angular, and strong knowledge of modern UI architecture and micro-frontend development. Additional exposure to Node.js, Express, Vue.js, InfluxDB, and MongoDB through training and projects. Skilled in team leadership, Devops, mentoring, and collaboration within Agile environments. Demonstrates proven success in driving innovative, high-impact solutions and fostering teamwork. Actively seeking opportunities to leverage technical skills and agile expertise to enhance efficiency and deliver outstanding results in dynamic organizations.

KEY SKILLS

ReactJs & Redux

Nextjs and Micro-frontend

Angular & Vuejs

HTML5 & CSS3

Javascript & Typescript

NodeJs & ExpressJs

Leadership & Management

Github & Gitlab

Git Action & Copilot

WORK EXPERIENCE

Senior Consultant 2

Aug 2025 - Present

EXL (Remote, Gurugram - Service based MNC)

- Developed complete frontend applications using ReactJs, and JavaScript, ensuring seamless user experience.
- Designed and implemented complete end-to-end frontend solutions, optimizing performance and scalability.
- Enhanced frontend application security by integrating authentication, authorization, and other best practices.
- Optimized frontend application performance through code refinement and efficient resource management.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines using Git and GitHub Actions to streamline deployment processes

Sr. Application Developer

Feb 2024 - Jul 2025

TELUS (Remote, Noida - Canada based product organization)

- Delivered scalable React (CSR) and Next.js (SSR) micro frontends (MFEs) using TypeScript within a robust Micro Frontend architecture.
- Integrated headless CMS(Contentful) with modern frontend technologies to enhance content management workflow.
- Conducted React.js and JavaScript training sessions for over 50 developers, boosting team proficiency.
- Participated actively in the hiring process by conducting more than 20 technical interviews to identify talent.
- Collaborated closely with backend teams to ensure efficient and reliable API integration across services.

Sr. Web Developer

Jun 2019 - Feb 2024

VVDN Technologies Pvt Ltd (Noida & Gurugram - Service based MNC)

- Spearheaded 25+ client-facing UI features in enterprise applications and mentored 10+ interns, conducted code review & training sessions.
- Improved performance and accessibility across multiple React and Angular projects and developed reusable component libraries for scalable UIs.
- Integrated REST & GraphQL APIs, implemented secure data flows and built responsive web applications using React.js, Angular, HTML, CSS, and JS.
- Participated in CI/CD and deployment pipelines using Jenkins.
- Followed Agile methodology; participated in daily standups and sprint planning.

PROJECTS

Deployment Management & Service Monitoring Platform | Client: Barclays

10 Months

- Duration: Aug 2025 — Present | Tech Stack: React.js | Role: Consultant II
- Developing enterprise deployment management solutions to orchestrate, track, and monitor service deployments across environments.
- Building dashboards to provide end-to-end visibility into deployment history, service health, and operational status.

TELUS E-Commerce Platform | Client: TELUS

18 Months

- Duration: Feb 2024 — Jul 2025 (~18 Months) | Tech: React.js, Next.js, Micro Frontend | Role: Sr. Application Developer
- Developed and maintained large-scale e-commerce applications for SIM card sales using Micro Frontend architecture with React and Next.js.
- Built independently deployable MFEs, conducted 20+ technical interviews, and mentored 50+ engineers in React & JS

UI Component Library & Design System | Client: Extreme Networks

7 Months

- Duration: Jun 2023 — Jan 2024 (~7 Months) | Tech Stack: Angular | Role: Sr. Frontend Developer
- Developed reusable Angular component libraries and design system modules to ensure UI consistency across enterprise applications.
- Created installable and configurable shared components consumed by multiple product teams.

Smart Building Management System | Client: Larsen & Toubro (L&T)

14 Months

- Duration: Apr 2022 — May 2023 (~14 Months) | Tech: React.js, IoT | Role: Sr Frontend Developer (Solo Contributor)
- Developed a smart building automation platform enabling monitoring and control of building through IoT devices.
- Designed high-performance dashboards, charts, tables, forms, & file modules with optimizing application performance.

Smart Water Bottle Platform | Client: Amazon

6 Months

- Duration: Oct 2021 — Mar 2022 (~6 Months) | Tech Stack: React.js, Linux, IoT | Role: Frontend Developer
- Built UI modules for an IoT-enabled smart water bottle displaying water level, temperature, and TDS data through sensor integration.
- Worked as an individual contributor, integrating sensor-driven data with embedded display interfaces.

VVDN Video Collaboration Platform | Client: Internal Product — VVDN Technologies

7 Months

- Duration: Mar 2021 — Sep 2021 (~7 Months) | Tech Stack: React.js | Role: Senior Frontend Developer
- Developed real-time collaboration features including screen sharing, screen recording, audio, and video communication capabilities.
- Built scalable UI components for an enterprise video conferencing platform used internally across the organization.

Samsung Employee Management System | Client: Samsung

12 Months

- Duration: Mar 2020 — Feb 2021 (~12 Months) | Tech Stack: Vue.js | Role: Frontend Developer
- Developed employee management functionalities used for workforce administration and operational tasks.
- Delivered multiple business features while collaborating closely with cross-functional teams.

Samsung Knox Security Platform | Client: Samsung

9 Months

- Duration: Jun 2019 — Feb 2020 (~9 Months) | Tech Stack: Vue.js | Role: Junior Frontend Developer
- Worked on Samsung Knox web applications, focusing on bug fixing, debugging, and enhancement of security features.
- Collaborated with the development team to improve application stability and user experience.

EDUCATION

B.Tech/B.E. | Computers

2019

Shaheed Bhagat Singh College of Engineering and Technology, Ferozepur

EXTRA-CURRICULAR ACTIVITIES

Internal Trainings

Conducted technical training sessions on React, JavaScript, and frontend architecture.

Mentored Developers

Mentored interns and junior developers as part of onboarding and upskilling programs.

Participated on Competitions

Participated in internal coding competitions, solved UI/UX and API-related problems.

National Cadet Corps

NCC Certification Holder, Trained in discipline, leadership, and civic engagement

Personal Portfolio

Built a personal portfolio site, project showcasing frontend skills

Organized Events

Organized tech and cultural events during college (e.g., coding fests, aptitude and reasoning competitions).

TECHNICAL SKILLS

Frontend

React.js(Class, Hooks), Next.js (SSR/CSR), Angular, Redux Toolkit, JavaScript(ES6+), TypeScript, Vuejs, HTML5, CSS3, Universal Design System(UDS), Responsive Design, Tailwind CSS, Micro Frontend.

Backend (Exposure)

Node.js, REST API Integration, GraphQL, Swagger, Postman, Contentful (Headless CMS), Express.js, API Authentication & Error Handling

Testing

Jest, Mocha, Jasmine, React Testing Library, Postman, Swagger, ESLint, Prettier, GitHub PR Checks (Unit test, Lint, Code Coverage), Code Review Process

Tools, DevOps, Cloud & CI/CD

Git, GitHub, GitLab, Jira, Contentful, Docker, Jenkins (CI/CD pipelines), GitHub Actions, AWS, Environment-based deployments (dev/stage/prod), Vercel/Netlify, PR validation (6-step checks)

Architecture & Agile Workflow

Micro Frontend Architecture (MFE), Backend-for-Frontend (BFF) Pattern, Headless CMS Strategy, Domain-Driven Design (DDD), Loose Coupling & High Cohesion, Agile Scrum, Jira, Confluence, Cross-functional Collaboration (India, Canada, Philippines), Sprint Planning & Demos

SOFT SKILLS

Mentorship, Agile/Scrum, Code Reviews, Interviewing, Cross-Team Collaboration, Technical Communication, Stakeholder Alignment, Sprint Planning & Demos, Continuous Improvement Mindset

ADDITIONAL INFORMATION

Hobbies: Reading tech blogs and documentation, Playing strategy Indoor and outdoor games, Fitness and running

Languages: English ,Hindi
